

## **REQUEST FOR ASSESSOR-FOR-THE-DAY**

(Note: this form should be completed by the referee assignor or by league/tournament officers in cooperation with the referee assignor. Individual referees that would like to request an assessment for upgrade, grade maintenance, or development should complete the *Request for Assessment* found elsewhere or contact the State Director of Assessment.)

League or Organization: \_\_\_\_\_

Contact Person (include phone number and e-mail): \_\_\_\_\_

\_\_\_\_\_

Date(s) of games: \_\_\_\_\_

Please give a brief description of the games that will be going on including level of play, tournament name (if applicable) and any special circumstances that need consideration:

\_\_\_\_\_

Number of assessors requested: \_\_\_\_\_

**Brief Description:** The assessor will complete approximately ten half-game developmental assessments and provide feedback to all officials observed, along with a copy of the standard USSF Development and Guidance Assessment form. This arrangement is very flexible and the number of games/officials observed will vary slightly depending on the games selected. The referee assignor and the selected assessor will work together to coordinate exactly how the day is spent. The assessments are for development only and are **not** given a score or pass/fail. The fee is \$100 per day per assessor and is paid directly to the assessor at the field unless prior arrangement is made. The program is intended as a tool for educating referees that are USSF Grade 8 and below. Grade 7 and above are required to submit an annual maintenance assessment with their certification and should follow those procedures.
